## PROVENCE

COTEAUX D'AIX EN PROVENCE BIO

### CÉPAGES

Grenache & Counoise

### TERROIR

Terminus. You are in Provence. A collaboration between two houses: GAUDINA x CHAPE.

Around Lançon-de-Provence, between the Alpilles and the Étang de Berre, the vines grow in a classic Mediterranean landscape: stony soils, intense sunlight, and steady winds that keep the grapes healthy throughout the summer. The estate is run under organic polyculture. Here, vines are not alone — they coexist with olive trees, cereals, and other Mediterranean crops. The domaine also produces one of the region's finest olive oils. An ancient, coherent farming model where each crop contributes to the balance of the whole.

### VITICULTURE

The vineyard is organically farmed, with careful soil work and a constant search for natural balance. Grenache brings warmth and the sun-drenched expression of Provence rosé.

Cinsault, more discreet, plays a key role by adding freshness, finesse, and energy, avoiding any heaviness. Harvest takes place relatively early to preserve natural acidity and maintain a precise, drinkable profile.

### VINIFICATION

The grapes are directly pressed, following the traditional Provence rosé method.

The juices are clarified and then fermented at controlled temperatures to preserve aromatic purity. The wine is aged for a few months on fine lees in stainless steel to bring volume and texture, while maintaining freshness and precision.

Minimal intervention. Just what the wine needs.

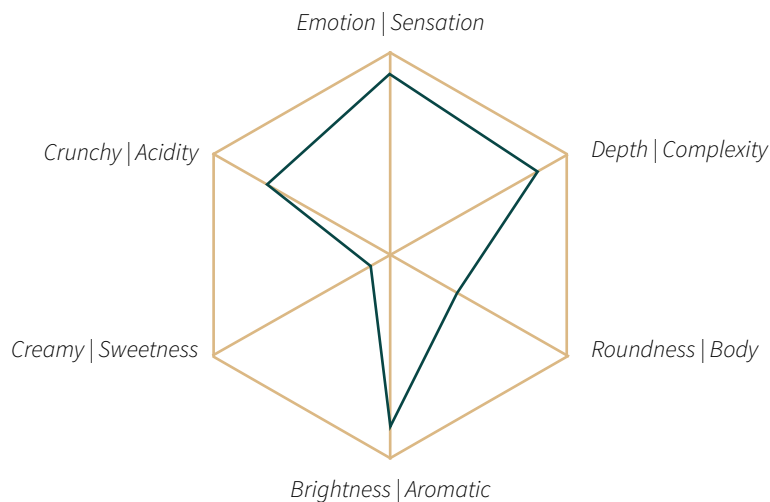

### DÉGUSTATION

Pale and luminous color. The palate is fresh, clean, and generous, driven by precise fruit and a slightly saline finish.

Delicate red fruit, Mediterranean herbs, and garrigue notes emerge.

A sunny, fresh, and generous wine, made for sharing.

Here, Terminus is not the end — it's where you discover the best of Provence.

### LOGISTICS

#### BOTTLE

BDX haute  
Height: 32cm  
Weight: 1.42 kg  
Gencod : 3760411481276

#### CASE

Dimensions : 25x17x33 cm  
Poids : 8,25 kg  
Unités par carton (UCV/Carton) : 6  
Gencod : -

#### LAYER

Number of layers: 5  
Cartons per layer: 20  
Total cartons per pallet: 100

#### EUR PALLET

Dimensions: 80 × 120 × 170 cm  
Weight: 740 kg  
Cases per pallet: 100  
Bottles per pallet: 600
